D. Albrey Arrington, Ph.D., Executive Director

## MEMORANDUM

TO: D. ALBREY ARRINGTON, Ph.D.  
Executive Director

FROM: CLINTON R. YERKES *CR*  
Deputy Executive Director

DATE: June 10, 2015

SUBJECT: Award of Contract  
Duplex Grinder Pump Equipment for River Oaks/Little Oaks

---

This is a budgeted Capital item as part of the River Oaks/Little Oaks gravity sewer project.

This is a low pressure duplex grinder station that is part of our standardized pump system, however, this does not include a fiberglass wet well. As was done in Eagles Nest the construction contractor will provide a concrete wet-well and install the District provided pumps and panel.

The project engineer Mathews Consulting, Inc. and Mr. Dean have reviewed the equipment proposal and the construction bidders were all made aware of the equipment to be provided by the District.

Southeast Pump has been designated a sole source provider of the District grinder systems.

The following motion is suggested for approval of this item:

**“THAT THE DISTRICT GOVERNING BOARD authorize award of contract to Southeast Pump for the River Oaks/Little Oaks Duplex Low Pressure Pump Station Equipment in the amount of \$25,183.00 in accordance with their May 15, 2015 “revised” proposal.”**

Should you have any questions please contact me.
