

Loxahatchee River Watershed Status LRD's RiverKeeper Water Quality Monitoring Program & the Host of Benefits

LRD's quarter century water quality monitoring program, named RiverKeeper, provides highly valuable data that is utilized by various agencies to: 1) assess the health of the Loxahatchee River, 2) set water quality standards, and 3) guide restoration efforts. At our meeting we will summarize some of the important work that several agencies are presently working on, which is heavily dependent on our extensive datasets.
