MEMORANDUM

TO: D. Albrey Arrington, Ph.D., Executive Director

From: Clinton R. Yerkes, Deputy Executive Director *CRY*

Date: September 2, 2015

Subject: Loxahatchee River Rd. Reclaimed Water Main Replacement
Engineering Services- Change Order #1

The District has operated and maintained a reclaimed (IQ) water main aerial crossing of a small creek at a location just north of the Eagles Nest subdivision on Loxahatchee River Rd. since the early 1990's.

At the March, 2015 regular meeting of the District Governing Board, the Board authorized an Engineering Services contract with Holtz Consulting Engineers, Inc. (HCE) for the removal and replacement of the existing reclaimed water line with a directional bore, subaqueous crossing of the creek. Preliminary discussions with permitting agencies did not indicate that the creek was subject to obtaining a Submerged Lands Lease from the State of Florida.

Design work has been completed and most permits received, however, recently HCE has been notified that a Submerged Lands Lease (SLL) will be required. The HCE has provided the attached scope from Lidberg Land Surveying, Inc., and executed the attached Change Order #1 for additional survey work to meet the SLL application requirements.

The following motion is suggested for approval of this item:

"THAT THE DISTRICT GOVERNING BOARD authorize execution of Change Order #1 to the Engineering Services Contract with Holtz Consulting Engineers, Inc., for the Loxahatchee River Road Reclaimed Water Main Relocation contract, in the amount of \$1,805.00."

We are confident that the District will obtain the necessary approval, however, it is a time consuming process.
