MEMORANDUM

TO: D. ALBREY ARRINGTON, Ph.D.
Executive Director

FROM: CLINTON R. YERKES
Deputy Executive Director

DATE: June 6, 2016

SUBJECT: HYLAND TERRACE PROPERTIES
Purchase of Low Pressure Pump Units

Last month the District Governing Board authorized approval of a contract to construct the low pressure sewer system to serve neighborhoods on or adjacent to County Line Road, south of the tracking station.

A total of 40 homes are included in this project. All of the (40) homes will use a simplex (1 pump) low pressure grinder pump sewer system. The costs break down for this purchase, based upon the February, 2013 pricing is as follows:

40 Simplex Grinder Pump Units @ \$3,235.00 = \$129,400.00

As you may recall Southeastern Pumps has been designated by the District as a sole source provider for low pressure grinder pump stations based on the District Construction Standards and Technical Specifications.

The following motion is suggested for this purchase:

“THE DISTRICT GOVERNING BOARD has received documentation from the Purchasing Principal that the following materials can only be obtained through a “sole source”, as described in the District Procurement Policy, and approves excepting this purchase from bid requirements; therefore

THE DISTRICT GOVERNING BOARD authorizes the purchase of 40 simplex grinder pump units, from Southeastern Pump in the total amount of \$129,400.00.”

Should you have any questions regarding this purchase please contact me.
