

Exhibit Installation is Here!

Sparks begins putting up exhibit graphics

Water Use & Reuse

Graphics for several of the exhibits have been installed by Sparks. Included were Wild and Scenic River, Floodplains, Water Budget, Estuary, Water Use and Reuse, and Seagrasses. The History/Timeline graphic is in

production.

Next up will be the installation of the Wild and Scenic River

followed quickly by the remainder of the aquatic exhibits. The Life Support System, or filtration room, is being constructed. The slab has been poured and the walls are going up! Our grand opening will be here before you know it.

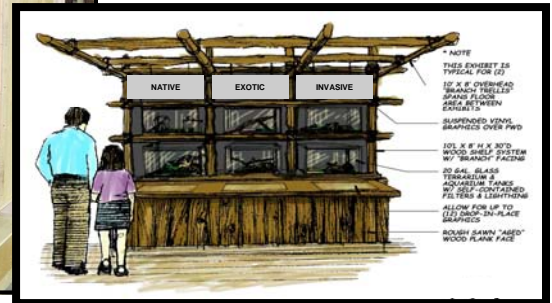

Anticipation is building at the River Center!

Critter Cabinets

Featured Exhibit—Critters

Reminiscent of Trapper Nelson's Zoo, this showcase of biodiversity in the watershed features terrariums housing spiders, frogs and colorful snakes, as well as display

cases and items to touch and study. The six aquaria will have rotating live exhibits of fish, reptiles, insects, and amphibians. Each with an example of a native, a non-native, and an inva-

sive species.

These critters will help visitors to understand the impact that exotic and invasive species have on our natural environment and the benefits of native species.

Wish List Items

Refrigerator

Picnic Tables

Cart / Wheelbarrow

Native Trees

Special points of interest:

- *Volunteer Opportunities are available. Please contact Jocelyn at 561-743-7123 or jocelyn@loxahatcheeriver.org*
- *Friends of the Loxahatchee River meetings are regularly held at the River Center at noon on the 1st Friday of the month.*
